

A photograph of a person rappelling down a large, craggy rock formation. The person is positioned to the right of the center, appearing small against the vast rock face. The sky is a pale, clear blue. The text 'VISION STATEMENT' is overlaid on the left side of the image.

## VISION STATEMENT

*To Be A Preferred One-Stop-Solution-Provider that  
benefits our Customers, Vendors and Employees*

**YOUR PROFESSIONAL AND RELIABLE WORKING PARTNER SPECIALISED IN PCB / FPC / LCD / SEMICONDUCTOR /  
ELECTRONICS INDUSTRY**

## TO BE THE LEADER IN ONE STOP SOLUTION PROVIDER

Established in year 2000, NICA Technologies Pte Ltd is a Singapore company founded by a group of experienced Technical Sales and Maintenance Professionals originated from companies involved in manufacturing of Multi-layer Printed Circuit Board and Regional Equipment Distribution.

Over the years the company had grown into a professional working partner of many PCB/Substrate, Automotive, Touch Panel, Surface Finishing / Plating on Plastics & Hydraulic Cylinders manufacturers in the region.

Its commitment to provide full Engineering & After Sales support service always remained as main focus. The team had Installed, Modified and Serviced equipment such as: Vertical Plating Systems, Automatic Handling System, Automatic Visual Inspection Systems, Horizontal Wet Process Lines, Automatic Mylar Peeler, Conveyor Curing Oven, CNC V-Scoring, Screen Printing Machine, Vertical Roller Coater, Brushing Machines and etc.

Applying careful selection criteria and adopting customers' recommendation, the company had established a comprehensive product line which include State of Art process equipment and consumable products. With growing demand from the market, the company have developed FULL capabilities in refurbishing & supply various used equipment.

Your One Stop Solution Provider
